2-bay CloneStation for 2.5"/3.5" HDD/SSD with card reader and USB Type-A hub

Dual-bay design

The CloneStation's dual-bay design works with both 2.5" and 3.5" SATA drives, giving users the flexibility to clone or back up a variety of hard drives. This makes it ideal for those who manage different types of storage media , providing a quick and easy solution for varying data management needs.

Stand-alone cloning function with LED progress indicators

Easily clone your source hard drive to a larger target drive without the need to connect to a computer. With the LED lights indicating progress in real time (from 25% to 100%), you can monitor every step of the process. This ensures that cloning is not only easy but also reliable and accurate at all times.

All-in-one solution with card reader and USB hub

The CloneStation is equipped with both CF and SD card readers, making it easier to access and transfer media files like photos and videos. It also has an additional USB 3.0 port for connecting external devices. Whether you need to back up data or manage media, this all-in-one solution simplifies your workflow, saves time and reduces data clutter.
