Model: **ATOM FLY LADY**

Code: **PE250GF**

Colour: **GREY FUCSIA**

DESCRIPTION

Women's trousers equipped with two large holster front pockets that can be concealed inside the two front pockets.
Elasticated waistband with an innovative retractable adjustment system.
The accentuated rear yoke better protects the lumbar region; reflex tape on the rear belt loop and abrasion-proof material that reinforces the heel thanks to the COMBAT anti-wear system.
Work trousers made of very comfortable U-4 fabric, a stretch fabric that moves in 4 directions, designed to follow the body's movements and provide a high degree of freedom of movement.
These women's work trousers are extremely durable and soft on the skin, they are water-repellent, breathable and quick-drying.
Women's multi-pocket trousers with: a side tool pocket, two back pockets, a multifunctional side pocket with concealed badge holder, a pocket with a flap and one with velcro safety fastening. Each pocket is made of durable polyoxford 600D fabric.
Women's trousers with a zipped front right pocket and a large zipped side pocket.
The style is completed by important safety details, such as triple stitching, the scratch-resistant button and the central fly with YKK zip.
Trousers suitable for farming and gardening, construction work, workshops, logistics and transport.
