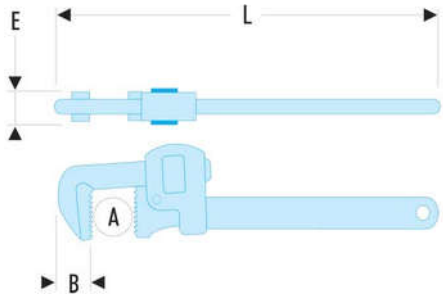
SLS - Wrenches

SLS tooling

131A.18SLS 131A.SLS - Steel Stillson models



Description :

• Tool equipped with a FACOM SLS attachment solution, preventing any risk of accidental falls.
• Capacity: 0 to 102 mm; 0 to 3"1/2.
• Very robust wrench, head hardened to 55 HRc.
• Accurate approach thanks to fine machining of the threads and button, good grip.
• Clé "Stillson" avec trou dans le manche : accrochage directe par mousqueton.
• Mors mobile indémontable pour éviter une perte ou chute.
