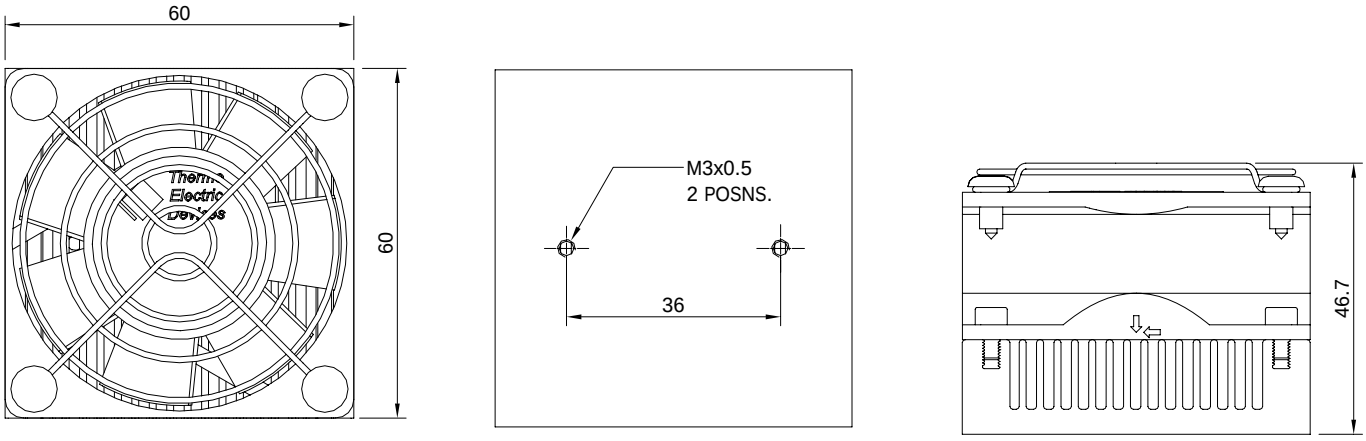
Thermo Electric Devices

PRODUCT DATA SHEET

TDEX6015/TH12G (RS STOCK # 158556)

EXTRUDED HEAT SINK / FAN ASSEMBLY



Applications

The TDEX6015/TH/12/G is a compact high-performance extruded fan heat sink assembly designed for use with thermoelectric (Peltier effect) coolers of up to 30mm x 30mm footprint and up to 22W Qmax. It would be equally suitable for other semiconductor applications requiring high performance within a compact footprint.

- **L: 60 W: 60 D: 47mm Mass: 170g**
- **12V (1.8W) fan**
- **6035-T5 black anodized heat sink**
- **Machined thermal interface**
- **2 x M3 fixing holes**
- **Finger guard included**
- **0.50 deg C/W**
