GEARWRENCH

# 14 Piece 1/4 Drive 6 Point Metric Mechanics Tool Set

80326

**Available at**
**RS Components**

GEARWRENCH mechanics tools have all been designed with the professional user in mind to increase productivity, access, and strength. The 90 tooth ratchets and sockets are made from premium alloy steel and feature a full polish chrome finish that resists rust and corrosion. Large, hard-stamped markings allow for easy identification and can be easily recognized as SAE (double line) or metric (knurled line). Additionally, the off-corner loading design puts force on the flats of fasteners for improved durability and reduced fastener rounding.

## FEATURES

- 90-tooth gear delivers a 4° swing arc to turn a fastener in tight confines
- 1/4 socket driver with ergonomic dual material handle
- Sockets feature off-corner loading design to reduce fastener rounding
- Bright, full polish chrome finish easily wipes clean and resists corrosion
- Knurled full polish chrome extensions
- Hard stamped size markings
- Includes blow mold case for storage and organization
- Meets or exceeds ASME specifications
