Technical sheet

PARKSTOP50

Rubber parking stop with asphaltfixing- 500 mm

Parking stop ideal for securing, delineating, and organizing parking spaces as well as separating traffic lanes. Its black and yellow color allows it to be very visible even from a distance thanks to its Class 1 reflective yellow stripes. Made of rubber with polymer, pigments, and glass microbeads strips. It has 4 reflectors, 2 20mm diameter cable pass-throughs, and hole cover caps. The possibility of adding LEDs to increase its visibility. Resistant to grease, acids, and temperatures ranging from -40 to +60Â°C. Supplied with asphalt fixings. Available in different lengths.

EAN_____0
HS Code_____4016999790

Color : Black/Yellow
Made of : Rubber

Specifications :

- Parking stop ideal for securing, delineating, and organizing parking spaces as well as separating traffic lanes
- Polymer bands, yellow reflective class 1 pigments and glass microbeads
- 4 reflectors, 2 20mm diameter cable pass-throughs, and hole cover caps
