PLASTIC PIPE CUTTERS

Cut your PVC pipes with ease

Lightweight and robust
High-strength magnesium alloy body. Up to 35% lighter than a steel tool.

Power and durability
PTFE-coated stainless steel blade for easy, straight penetration of all plastics, PVC, PER, PEX and multi-layer pipes. Optimized force transmission reduces cutting effort, even in thick pipes.

One-hand operation
The ergonomic design and strength of the tool mean you can keep 1 hand free! Indispensable for holding work with the other hand. Controlled work and preserved balance.

Ingenious and practical
Quick and safe blade change in less than 10 seconds, without using other tools!
(Applies to 64026, 64035, 64042 and 64063 clamps)

Simple, fast and safe
The blade fits inside the magnesium alloy body.
The cutting edge won't get damaged in the toolbox, and there's no risk of injury when gripping the pipe cutter.

Reference	Designation	Packaging	EAN13
64026	EASYCLIP PIPE CUTTER FLEXIBLE 26MM	1	3700333202801
64035	EASYCLIP PIPE CUTTER FLEXIBLE 35MM	1	3700333202825
64028	EASYCLIP PIPE CUTTER FLEXIBLE AND THIN WALL 28MM	1	3700333202887

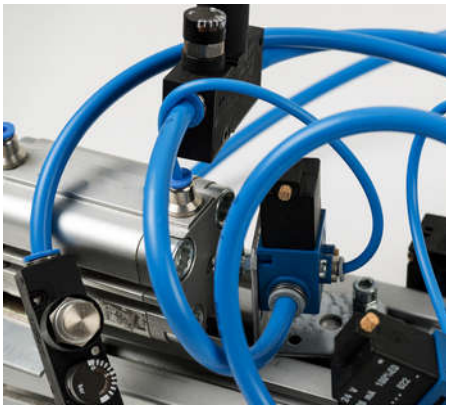
PLASTIC PIPE CUTTERS



ERKO 64026 AND 64035
FOR FLEXIBLE HOSES

Perfect grip and cutting edge for fast, precise cutting of flexible hoses: compressed air, hydraulics, pneumatics, irrigation, underfloor heating.

64026

Up to 26 mm

64035

Up to 35 mm

ERKO 64028
FOR FRAGILE, HARD-TO-CUT PIPES

Bevelled cutting edge and ball-bearing shaft. For perfect tube penetration. Cuts without tube deformation. Ideal for fragile, thin-walled tubes, brittle tubes, precise assemblies. Pneumatic and hydraulic networks, plumbing and heating fittings, chemicals.

64028

Up to 28 mm

ERKO 64042 ET 64063
FOR PVC - PER NETWORKS
DRAINAGE AND SANITARY SYSTEMS.

A powerful grip and perfectly positioned blade for straight, fast and precise cuts in PVC and PER pipes.
The 63 mm model features a locking pawl to secure pipes with diameters under 50 mm, enabling the blade to attack small pipes with point, without crushing.

64042

Up to 42 mm

64063

Up to 63 mm

PLASTIC PIPE CUTTERS

ERKO 64127
PPR/PER/PVC/PE PIPE CUTTER FROM 50 TO 127 MM

Lightweight and robust: Magnesium/Aluminium alloy injected body

For all plastics: PPR, PE, PVC, PER , multilayer ...

High-capacity: from 50 to 127 mm diameter.

Fast: injected ZAMAC knob and collar with rapid-feed system.

Straight cut: 3 clamping rollers, 1 of which can be positioned according to diameter: for perfect hold of the tube during cutting.

Clean cut: 360° integrated, retractable deburrer.

EASY-CLIP: no-tool quick-change wheel.
Supplied with a 51 mm cutting wheel, for cutting tubes up to 20 mm thick.

Reference	Designation	EAN13
64127	PLASTIC/MULTILAYER PIPE CUTTER 127MM	3700333202917
64006	51MM WHEEL FOR PVC PIPE CUTTER	3700333201675

ERKO 64170
PPR/PER/PVC/PE PIPE CUTTER FROM 100 TO 170 MM

Lightweight and robust: Magnesium/Aluminium alloy injected body

For all plastics: PPR, PE, PVC, PER , multilayer ...

High-capacity: from 100 to 170 mm diameter.

Fast: injected ZAMAC knob and collar with rapid-feed system.

Straight cut: 3 clamping rollers, 1 of which can be positioned according to diameter: for perfect hold of the tube during cutting.

Clean cut: 360° integrated, retractable deburrer.

EASY-CLIP: no-tool quick-change wheel.
Supplied with a 51 mm cutting wheel, for cutting tubes up to 20 mm thick.
