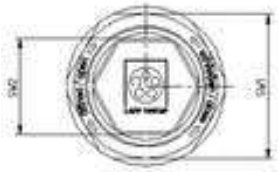
SKINTOP® accessories metric

Polyamide blind plug with innovative CLICK system



Application:

Blind plug with innovative CLICK system for fast installation in hardly accessible places. Perfect solution wherever threads previously cut must be closed.
Developed especially for:

- Manufacturing of control cabinets
- Measurement, control and electrical applications
- Automation technology
- Plant, apparatus construction
- Control system construction

Advantage:

- Up to 70% time saving due to innovative CLICK system
- Simple, free assembly in any position
- Fewer parts, counter nut no longer needed
- Captive
- No thread required
- Maximum quality
- IP 68, hermetically sealed

Note:

- Disassembly tool contained in the delivery scope
