PRODUCT DATA SHEET

Product Ref: TG2080

Medium Weight Mig Welding Glove

This Cut Level B MIG welding glove features durable cow split leather, cotton insulation, reinforced stress areas, and a long cuff for reliable protection against moderate cuts, heat, and abrasion. Its amber colour-coded cuff ensures easy identification of cut level.

KEY
- Dry
- Wet
- Heat
- Oily
- Cold
- Chemical

Key Features:

- Provides reliable protection against moderate cut hazards, ensuring safety during handling of sharp or abrasive materials encountered in welding and metalwork.
- Made from high-quality, durable cow split leather that offers good resistance to heat, sparks, and abrasion while maintaining flexibility for precise movements.
- Features cotton insulated lining to shield hands from moderate temperatures and prevent heat transfer, ensuring comfort and safety in prolonged welding tasks.
- Double-layer reinforcement in high-stress areas enhances durability, grip, and resistance to wear, even during heavy-duty or repetitive tasks.
- Long cuff provides additional coverage for the wrists and lower arms, guarding against heat, molten metal splatter, and sparks.
- Engineered for prolonged use in tough environments, with materials that resist wear and extend the glove's service life.
- Aramid thread stitching ensures strong, durable seams for long-lasting performance, even under demanding conditions.
- The vibrant amber colour-coded cuff aligns with Traffi's Cut Level B colour scheme, providing immediate and clear identification of the glove's performance level for enhanced workplace safety and compliance
- Leather is sourced from LWG Gold Rated tanneries, ensuring the highest standards of sustainable and responsible leather production
- Certified by OEKO-TEX®, gloves are tested to be free from harmful substances, ensuring safety for users and compliance with global chemical safety standards.

Ideal for:

- MIG Welding
- Metal Fabrication
- Manufacturing
- Construction
