Core Technologies

Verbatim has always been at the forefront of technological innovation. We are able to maintain our leadership and market the very latest products and technologies due to the extensive research and development that is undertaken by parent company Mitsubishi Kagaku Media in Japan.

We pride ourselves on our 'Core Technologies'.

AZO™ — Ultimate resistance to UV light for increased protection and reliability. High quality picture and sound with more than 100 years archival. Used in BD-R LTH type, DVDR and CD-R discs.

SERL™ — A special recording layer present on Verbatim's CD-RW, DVD/ RW and BD-RE media that ensures noise-free recording time and time again.

HARD COAT — A specially created tough coating for DVD media and Blu-ray Discs that is superbly resistant to harmful scratches.

CRYSTAL — A tough, clear surface layer for increased protection against accidental surface damage.

M•A•B•L™ — Metal Ablative Recording Layer. A specially created inorganic recording layer present on Verbatim's BD-R media ensures excellent recording compatibility and prolonged stability for archival life.

Medi Disc — CD-R and DVD-R targeted toward the medical industry for storing valuable patient information. Using tighter specifications for better compatibility and recording quality. Uses AZO.

3.5" Network HDD

Gigabit NAS

- **Media Server** - The drive is DLNA-compliant so you can watch movies on your TV through your digital media player or share files with other DLNA-compliant hardware like your gaming console
- **iTunes Server** - With the iTunes Server, you can store and manage your music collection centrally on the drive and access your music files via iTunes from any computer on your network
- **Printer Server** - Connect a USB printer into one of the USB host ports and set up a networked printer
- **FTP Server** - The NAS Drive functions as an FTP server for transferring large files over the internet
- **BitTorrent Function** - The bundled software includes BitTorrent for accessing rich media over the internet
- **Backup Software** - Set up automatic backup of all your networked computers using Nero BackItUp Essentials Backup Software that comes bundled with the drive
- **Additional Storage** - Extend your storage capacity by connecting a USB hard drive to the USB host port
- **Apple Bonjour** - Because the drive supports Apple Bonjour, you can connect your Mac to shared network drives
- **Gigabit Ethernet Capable** - The NAS Drive is compliant with the latest generation of high-speed wired networks

PART NUMBER	CAPACITY	DESCRIPTION
47591	1TB	Verbatim 1TB GigaBit NAS External Hard Drive
47593	2TB	Verbatim 2TB GigaBit NAS External Hard Drive

Mediashare Home Network Storage

Verbatim's MediaShare boasts a sleek and sturdy aluminium enclosure that complements any home.

- **Stream Multimedia** – Play music, photos and videos on a variety of digital devices such as Sony Playstation® 3, Microsoft Xbox 360 and other DLNA compliant devices
- **Multi-task** – Listen to songs and view pictures in the living room through a TV, while someone else listens to different music on a laptop in the kitchen, all accessed simultaneously from one MediaShare
- **Access Anywhere** – With MediaShare, you can access your files anytime from any location with an internet connection
- **Create User Accounts** – Multiple user accounts are available for set-up
- **Protect Data** – Establish automated back-ups of networked computers and run manual back-ups anytime. Also, the MediaShare offers password protection for user accounts, even on shared album links
- **Multiple Ports** – The MediaShare server offers an eSATA port for auto mirroring and USB ports for transferring data to or from USB drives
- **Easy Transfer Button** – You can transfer files from a USB drive or single slot memory card directly onto their MediaShare with just the touch of a button
- **Centralised Server** – The MediaShare lets you centralise all your home media files and access a shared printer from any computer on your network
- **High-performance processor** – Perfect for media streaming

About Verbatim

Verbatim is a leading global company in data storage and LED lighting with a broad product portfolio spanning consumer and professional applications. Verbatim has been shaping the development of data storage devices since 1969 and is the world's No 1 supplier of optical media (Blu-ray, DVD and CD). The company also markets flash memory, external hard drive storage solutions and a wide range of computer accessories.

In addition, the company is an innovator in fast-growing LED and OLED lighting, developing products that offer low power consumption, long life and a better lighting experience. It is also an emerging supplier of water filtration systems; its Cleansui brand is Japan's favourite water filter.

Verbatim is a subsidiary of Mitsubishi Kagaku Media owned by Mitsubishi Chemical Corporation, one of the world's largest chemical companies, which invests heavily in R&D across many diverse sectors. The company's operating principles are founded on helping people to live in a healthy, comfortable and sustainable way. Verbatim's regional organisations are EMEA, APAC and Americas, with offices in most countries in the world.
