Polyco® MATRIX

F Grip™

Flexible, comfortable & with an excellent grip

F Grip™ is an extremely comfortable seamless liner with a foamed nitrile coating that offers an excellent grip and a high abrasion resistance. Close fitting to give maximum dexterity, the seamless knitted liner is extremely comfortable and provides outstanding dexterity. This is complimented by the foamed nitrile palm coating which in addition to providing an excellent dry grip, offers a superb wet grip by channelling oils and liquids away from the surface of the glove. A maximum EN388 score for abrasion resistance means the F Grip™ is extremely durable and long lasting. The elasticated knit wrist, whilst providing a secure fit also serves to keep the hands free from dust and debris. With its high degree of comfort, excellent grip and competitive price, the F Grip™ is the perfect choice of glove for safe handling in moderately wet and oily environments.

Typically used for:

- Component Handling
- General Assembly
- Electronics
- Light Engineering Work
- Automotive Maintenance & Repair
- Automotive Engineering

Case Quantity:

12 pairs per polybag
144 pairs per case
