MEDIA PLAYER

Mini HD Media Players with HDMI Output

The Mini HD Media player can connect to your TV via HDMI, AV or YUV. This will then allow you to play media from external hard disks, flash drives and memory cards. You can watch movies, browse pictures or play music and it comes with a remote control for ease of use.

The media player will play all common formats such as MKV, AVI, XVID, DIVX, MPEG etc.. giving more control over what you can watch.

Features:

- Full 1080p output
- Supports Blu-ray Navigation and Blu-ray
- Supports all major HD movie formats
Including .MKV (with compressed headers)
DivX and MPEG 1, 2, 4
- HDMI or Composite (AV) video output
- Supports external HDD, flash drives and SD/MS/MCC cards

Interfaces:

- USB Host 2.0 x1
- HDMI and Composite output
- SD/MS/MCC Card reader

Package Contents:
