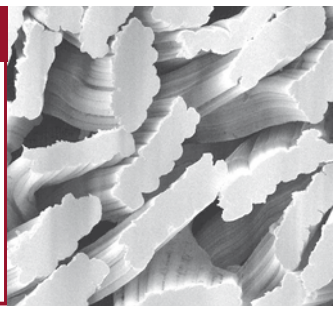
INCORPORATING

VILOFT®
A NEW DIMENSION OF COMFORT

After almost 100 years of production of round cellulosic fibres, 1985 saw the creation of VILOFT® - the world's first flat viscose fibre. The flat cross section delivers flexibility in the fibres and increases their surface area. When spun into a yarn, VILOFT® fibres align in a random pattern and form hollow spaces filled with air.



OEKO-TEX® CONFIDENCE IN TEXTILES STANDARD 100
