DATA SHEET

45-litre manual salt spreader

For spreading salt before or during snowfall. Frame in anti-corrosion lacquer finish. 45-litre polypropylene tank.

Handlebar for easy maneuverability. Thanks to a stability stand, the spreader is self-supporting and easy to fill.

Spreading disc extraction with adjustment handle. Even distribution of salt. High-strength aluminium gears. Wide tires for operations on soft and snowy ground. Easy spreading.

Rain cover - protects contents from the elements.

Supplied as a kit with assembly instructions.
