KB100 EQ Wired Full Size Keyboard

Designed using sustainable materials, the KB100 EQ Wired Full Size Keyboard features durable 65% post-consumer recycled content in the outer case and keycaps. The spill-proof design uses a sealed membrane to protect the keyboard electronics from accidental spills from coffee, water, and other liquids. The ISO full-size layout is ideal for the touch typist, offering responsive tactile keys for all-day comfort and a numeric keypad to support productivity. The sleek and slim profile saves valuable desktop space and complements a modern workstation. The plug and play USB-A connection provides a reliable wired and battery-free experience compatible with Windows and macOS. Includes 3-year limited warranty.
