ESD EURO CONTAINERS WITH HINGED LID ESD ED 43/12 HG

The ESD Euro container with hinged lid provides additional protection for the contents. The lid and hinges are made of the same antistatic material as the bin. This prevents the formation of electrostatic charges and allows existing charges to dissipate.

- Electrically conductive material
- Stackable
- Sturdy hinges

External dimensions L x W x H / 40 x 30 x 13.5 cm
Interior dimensions 37 x 27 x 10.7 cm
Interior height util 10.7 cm
Weight 1.47 kg
Contents 10 liters
Material ESD PP
Consisting of 1 Bin 1 Hinged lid 2 Hinges 2 Closing levers
Note: New design: Curved handle; smooth bottom finish
Color: black signal similar to RAL 9017
Spec. volume resistance*: $10^3 < 10^{10}$ Ohm/cm *
* Note: Please note that the finished parts may have different electrical properties due to the orientation of the material flow depending on the treatment process.
