Time switch technology

Socket time switch, analogue

topica 100 safety plus

topica 100 safety plus (CH)

topica 100 safety plus (FR)

Description

topica 100 safety-plus

- Analogue socket time switch
- Daily program
- 1 channel
- Without power reserve
- Mains synchronized
- Use for Schuko sockets (other plug types on request)
- Circuit preselection
- Switching status indicator
- 96 switching segments
- Shortest switching time: 15 minutes
- With increased contact protection, reduces the risk of people coming into contact with live parts of the socket outlet and possibly receiving an electric shock as a result

Product selection

Program	Shortest switching time	Programmable all	Contact type	Operating voltage	Country type	Type	Item no.
Daily program	15 min	15 min	Closer	230 V AC	DE	topica 100 safety-plus	16.15.0005.1
					CH	topica 100 safety-plus	16.15.0006.1
					FR	topica 100 safety-plus	16.15.0007.1

Technical data

	topica 100 safety-plus
Operating voltage	230 V AC
Frequency	50 Hz
Type of installation	Socket-intermediate connector
Program	Daily program
Switching capacity at 250 V AC, cos φ = 1	16 A
Switching capacity at 250 V AC, cos φ = 0.6	4 A
LED lamp < 2 W (typ.)	40 W
LED lamp > 2 W (typ.)	400 W
Shortest switching time	15 min
Programmable all	15 min
Accuracy at 25 °C	Mains synchronized
Stand-by power	0,8 W
Protection class	IP 40
Protection class	II according to EN 60 730-1
Ambient temperature	–40 °C … +55 °C
