PEPPERL+FUCHS

Limit Switch Style Proximity Sensor

USPs:

- Replacement for Mechanical Limit Switches, same footprint
- Range of sensing distance options to suit the application requirements
- Very bright indication LEDs, corner mounted to visible form any angle
- Superior EMC interference immunity
- Wide operating temperature range -25°C to 85°C
- Easy replacement, terminal base can be left in situ, no rewiring required
- Adjustable sensing face; Left right, up, down and forward
- Robust, waterproof & UV resistant
