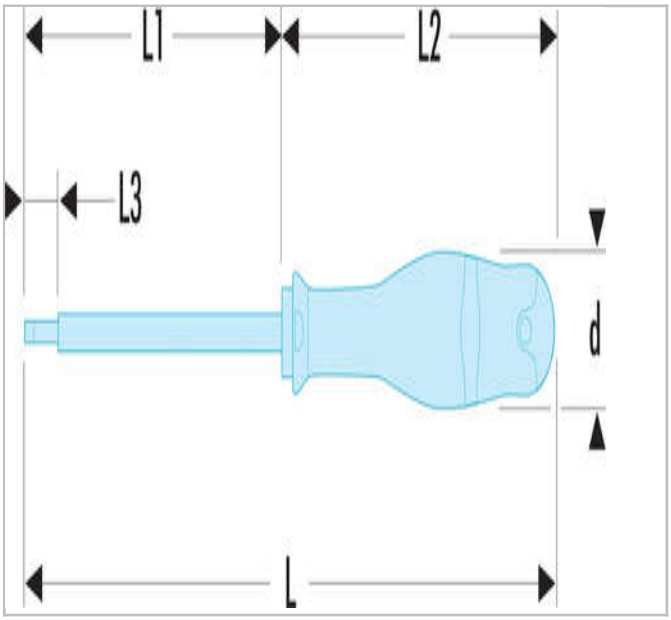
AT.VE - PROTWIST® 1,000 Volt insulated screwdrivers for slotted-head screws



Description:

● For your safety, each screwdriver is tested individually at 10,000 volts for 10 seconds, at the end of the manufacturing cycle.
● 1,000 Volt sheathed round blade.
● Milled blade: --> 5.5 mm included.
● Fillet blade: 6.5 --> 12 mm.
● Bi-material grip resists to impacts, abrasion, and chemicals.
● New chemical resistant handle with "power" channel for higher torque transfer.
● New softer handle material for improved comfort.
