TECHNICAL DATASHEET

STELVIO MID

JR 90998 8D K 4 S3 HRO SRC

SPECIFICATIONS

UPPER	BISTEADY high-tech water-repellent,high tenacity fabric
LINING	BIFRESH PLUS 3D lining with high breathability and top abrasion resistant
TOE-CAP	fiberglass
NAIL PROTECTION	Zero Perforation fabric, metal-free
SOLE	MICHELIN® PU/rubber
INSOLE	MEMORY FOAM
SIZES	36/47
FIT	Mondopoint 11
SAFETY NORMS	EN ISO 20345:2011
WEIGHT (SIZE 42)	1,185 Kg

WORK ENVIRONMENTS

Logistics / Craftmanship / Light Industry / Warehousing

DESCRIPTION

STELVIO MID is a light boot, S3 HRO SRC protection class with high-tech water-repellent fabric with an automotive concept look

COMPONENTS

Tricomponent insole, made in open cells high density polyurethane, memory foam and fast drying microperforated microfiber. Properties: impact energy absorption providing joint comfort, breathable, humidity absorption and termoregulation properties, return effect, antibacterial, very light. Eco friendly

Its weight reduced by over 50%, and the high impact and compression performance, make it the perfect choice for those looking for safety and lightness. Particularly suitable in areas where metal is not allowed

PLUS

BISTEADY: Nylon fabric produced with a special weaving where the reinforcement threads (thicker), are weaved at regular intervals with a precise crossing scheme. Although very light, this technique makes the fabric particularly resistant to tears and abrasion

BIFRESH PLUS: Three-dimensional Polyester lining with high abrasion resistance and breathability
