Champion™ Barrier

The Champion™ Barrier system offers exceptional value for money over life time use. Complete with galvanised nuts, bolts and washers which connect hinges, giving increased rigidity and robustness. Lamps are easily attached for additional night time visibility. Easily squared or linear sited and folds for efficient storage. 5 standard lengths, bases to suit. Easy to site and easy to store in vehicles or depots.

Reflective
Reflective top boards and plain white lower boards.

Hinged
The hinged boards mean that the Champion™ can be used for square siting around excavations or as a linear barrier along cabling or trenching sites.

Length Options
The Champion™ comes in a variety of lengths which enables the system to be erected in either a linear or boxed format.

Robust
It comes complete with galvanised nuts, bolts and washers which connect hinges, giving increased rigidity and robustness.

Base Options
With four ports the sturdy base is ideal for creating multi-directional demarcation.

Convenient
Easy to carry, deploy and site, as well as store in vehicles or depots.
