1" TORQUE WRENCH PLUS 200 - 1000 NM

- 1" torque wrench
- ±4% accuracy
- 72-teeth ratchet mechanism compliant with DIN 3122
- Twist reverse and quick-release button for socket changes
- 5-degree swing arc for precise adjustments in confined spaces
- Locking device to prevent accidental torque setting changes
- Clear Nm scale for quick and reliable settings
- Ergonomic bi-material handle with hand placement markings
- Delivered in a durable storage case
- Individually tested to ISO 6789 standards with unique serial number and Declaration of Conformance

TengTools 1192P1000 1" torque wrench Plus is designed for precision and durability in professional environments, with a torque range of 200–1000 Nm and an accuracy of ±4%. It is intended for heavy-duty tightening applications such as working with truck engines or installing large industrial machinery that requires high torque values. The torque wrench is designed for clockwise fastening of right-hand threads and constructed according to DIN 3122 standard with twist reverse and quick-release button. It features a 72-teeth ratchet mechanism of click-type which provides a 5° swing arc for controlled torque application, which is crucial for securing critical components. A clear Nm scale and locking button enable quick and precise adjustments. The click-type mechanism provides an audible and tactile signal when the required torque is reached, preventing over-torquing. The ergonomic bi-material handle, designed with anti-slip and markings showing where to place the hand, provides both control and comfort during extended use. With a weight of 6050 g and dimensions of 1243 mm in length and 66 mm in width, the wrench is robustly built to be reliable over time. It comes in a sturdy storage case for protection and easy transport, keeping it safe and ready for demanding environments. Each torque wrench is assigned a unique number and individually tested to comply with ISO 6789 standards and comes with a 'Declaration of Conformance' for guaranteed accuracy.

General information

Country of origin: Taiwan
Barcode: 5020385034037
Tarriff code Europe: 8204120000
ECCN US: EAR99
ETIM: EC002132
UNSPSC: 27111715

Features

Attributes

Product type: Torque Wrenches
Drive: 1"
Number of teeth: 72
Range: 200-1000 Nm
Scale resolution: 5
Accuracy: ± 4%
Calibration certificate: Factory
Reverse direction: Twist
Preset: No
Angular gauge: No
Digital: No
Bi-directional: No
Mechanism: Click
Tethering facility: No

Dimensions

Net weight (g): 6050
Width (mm): 66
Length: 1243 mm
