RS Pro Drive Motor Electromechanical Cam Timers

RS Stock No: **329-351**

Product Details

RS Pro drive motor electromechanical cam timer drives the camshaft through gearbox and is coupled to the gears using a brass pinion on its shaft. This drive motor runs at 500 rpm for faster performance.

Features and Benefits

- Drives the camshaft via the gearbox and is coupled to the gears using a brass pinion on its shaft
- Coupled to the gearbox via a clip supplied with the gearbox housing
- 19 mm high (excl. pinion), diameter of 46 mm
- Motor speed: 500 rpm
- Power consumption: 2.5 VA
- 220 mm lead length
- 45°C (typical) temperature rise

RS, Professionally Approved Products, gives you professional quality parts across all products categories. Our range has been testified by engineers as giving comparable quality to that of the leading brands without paying a premium price.
