HTJ HYDRAULIC TOE JACKS

Steerman hydraulic toe jacks are ideal when working in very confined spaces. Typical uses include lifting and positioning of heavy machinery, fabricated steel structures, and general engineering applications. These jacks are also ideal for use with a set of Steerman skates.

Features include:

- Lifting capacity of 3, 6 or 10 tonne, on the head and the toe.
- Extremely low entry height of the toe.
- Operating lever rotates through 220^0.
- Large stable base area.
- Carry handle for ease of handling.
- Chrome plated ram and pump piston.

Model	Article no.	Claw capacity kg	Head capacity kg	Toe height mm	Closed height mm	Stroke mm	Weight kg
HTJ-3	4300006217	3000	3000	16	230	130	16.4
HTJ-6	4300006218	6000	6000	22	267	152	23.2
HTJ-10	4300006219	10000	10000	29	280	130	38.2
