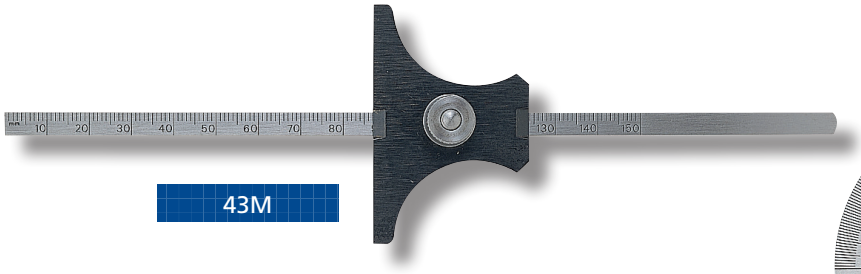
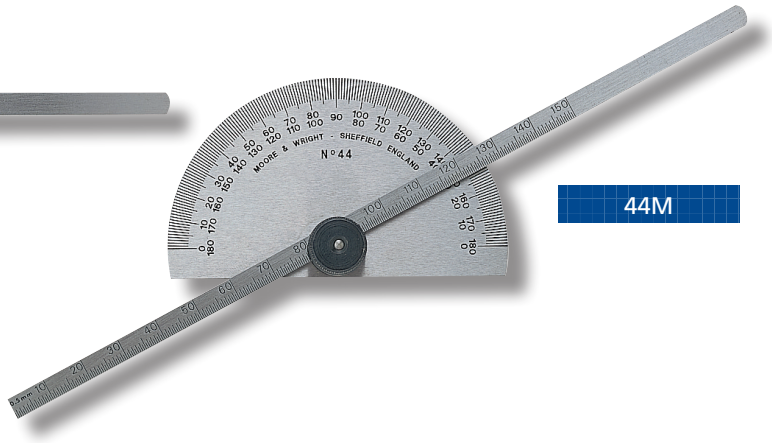
Traditional Depth Gauges Datasheet

Reversible base and protractor type depth gauges.





Features

- Available with either reversible base or protractor
- Measuring range: 0 - 150mm (0 - 6 inches)
- Readings can be fixed by means of a locknut
- Rules graduated on both sides
- Metric scales front face graduations 0.5mm, 1.0mm
- Metric scales rear face graduations 1.0mm
- Metric / Imperial scales front face graduations 1/32nd
- Metric / Imperial scales rear face graduations 1.0mm
- Length of blade 195mm / 7.68"

Features: Reversible Base Type

- Accurately ground top and bottom faces allow base to be reversed, for use in confined spaces

Features: Protractor Type

- Protractor plate is graduated 0° - 180° - 0° degrees
- Scale resolution 1/2 degree

Specification

Code No	Description	Width (mm)	Width (inch)	Size of Base (mm)	Size of Base (inch)	Thickness (mm)	Thickness (inch)
43	Reversible Base	5.5	0.22	18, 56	0.71, 2.21	1.0	0.04
44	Protractor	5.5	0.22	79	3.11	1.0	0.04
43M	Reversible Base	5.5	-	18, 56	-	1.0	-
44M	Protractor	5.5	-	79	-	1.0	-
