Optima™

A rubber glove offering optimum performance

Optima™ from Polyco is a latex mediumweight household glove with a soft cotton flock lining.

This natural rubber glove performs well to protect against acids, alcohol and other chemicals. It is mediumweight offering improved strength whilst maintaining a high level of dexterity, and has a slip resistant pattern on the palm and fingers ensuring a good level of grip especially in wet conditions. Its anatomical shape and flexibility minimise hand fatigue, and the soft cotton flock lining absorbs perspiration keeping the hands cooler for longer. The blue Optima™ has been tested in accordance with EN1186 making it suitable for food contact. Available in five colours for easy job application coding.

CE 0120 EN388 1020 EN374-2 EN374-3

Thickness: 0.52mm
(Single Wall measured at palm)

Blue glove only
