

CT-90 FOAMING CUTTING AND TAPPING FLUID

CT-90 Foam has been specifically formulated to cling to the work piece right up to the tool edge, making applications even on vertical surfaces possible while keeping the lubricant in contact with both job and tool. It can be used on all tough metals including stainless steel; improving work speed, tool life and surface finish when cutting, tapping, drilling and reaming. Containing extreme-pressure (EP), additives that reduce friction and keep the workpiece at a stable temperature to prevent seizing. Dissipates heat, reduces cutting time, improves surface finish, metal scrap and downtime. Protects and extends the life of the tool.

KEY FEATURES

- Dissipates heat, preventing seizing
- Speeds up cutting time
- Clings to vertical surfaces and to cutting edges on tools
- Reduces swarf build-up
- Protects and extends the life of the tool
- Extremely low fuming
- Non-flammable

APPLICATION AREAS

Outstanding performance for turning, drilling, reaming, tapping and thread cutting of tough metals such as stainless steel, high-tensile, high-speed, high-carbon steels, and carbon fibre/composite forms. Particularly invaluable for:

- Metal Fabricators
- Metal Parts Manufacturers
- Mould and Dye Makers
- Pattern Formers

DIRECTIONS FOR USE

- Gently shake the aerosol can and spray in an upright position.
- Apply to the cutting tool before the cutting operation begins and to the workpiece during cutting.
- Exercise caution when applying near moving parts.
- CT-90 may cause staining on some yellow metals.
