

SA-90 CONTACT SPRAY ADHESIVE

SA-90 heavy-duty multi-purpose contact spray adhesive is a superior adhesive with flexible repositioning capability, providing right first time results. Delivers a powerful, permanent bond with a very smooth and professional appearance. The aerosol ensures easy application easy with an adjustable spray pattern to help minimise overspray. Highly economical: coverage area approx. 3-5m^2.

KEY FEATURES

- Heavy duty multi-purpose contact spray adhesive
- Strong, flexible bond
- Easy to use with precise positioning capability
- Adjustable spray pattern minimises overspray
- Coverage approximately 3–5m^2
- Non-chlorinated

NEVER ASK A PROFESSIONAL TO USE ANYTHING ELSE!

APPLICATION AREAS

Use SA-90 for bonding automotive upholstery, trim and foam backed carpet, carpet tiles, displaying signage, and paper/ card. Suitable for use on all metals, wood, ceramic and cork.

DIRECTIONS FOR USE

- Surfaces to be bonded must be clean, dry and free from grease, dust, paint, polish and loose material.
- Shake the can well before use. SA-90 should be applied directly from the can onto both surfaces to be bonded.
- Spray from a distance of approximately 15cm covering both surfaces with an even coating.
- Allow the adhesive to dry slightly. This will take approximately 3 to 4 minutes at normal room temperature (the drying time will be longer at lower temperatures).
- When the surfaces are tack dry, press them together with firm even pressure.
- Very porous surfaces may require two coats of adhesive and drying time may be longer.
- After use, invert the can and spray a small amount of product to clear the nozzle.
- Store the product in a dry place at between 5°C and 25°C.
