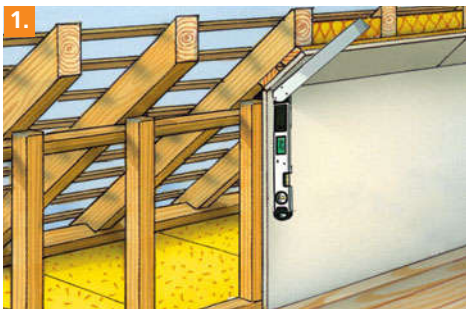
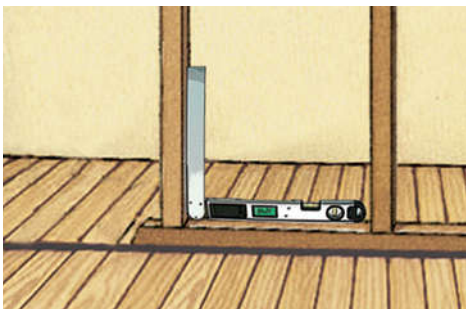
Digital electronic angle gauge – precise, optimal measurements into the last corner

Rev 0511





1. **Precisely measure inside or outside angles from 0-220°:** measurements of roof angle, fitting furniture or windows at corners and edges.
2. Additional **extensible bevel** for measuring angles in difficult to reach locations.

– Robust **aluminium housing**
– **Vertical and horizontal level vials**
– An **illuminated LC display** on each side (front and rear) to permit work at either side.
– Both displays can be flipped at the touch of a button: **FlipDisplay**
– **Auto shut-off function**
– **Auto hold:** for work where the LC display is not visible.
– **Angle bisection** displayed at the touch of a button, even in hold mode; optimal for mitre cuts.

Bevel extended downward ....

.... or upward, as needed.
