Brand : Atlas Workholders

18mmxM14 T-SLOT MACHINE CLAMP SET

Product Information :

58 Piece metric T-slot steel set is manufactured to a high standard & available to suit a full range of metric and imperial T-Slot widths.

Features & Benefits
• Designed to save set up time and solve most clamping problems
• All step clamps are forged and hardened & the step blocks are made from high quality steel for increased productivity
• All components (except studs) are heat treated and finished in black oxide coating for enhanced performance
• Supplied in steel racks which can be wall mounted or fitted to workbenches for ease of storage (except M16 set which is supplied in wooden box)
• Available to suit a full range of metric T-Slot widths for a wide range of use

Typical Applications
• Workholding

Notes
• Range of sizes available

EAN Code - 5036140016095
