RILEY

PERFORMANCE FACE COVERING
DATASHEET

The Riley Face Covering is lightweight and ergonomically designed, including an adjustable slider for a comfortable and secure hold. The ear loop face covering features Coolmax® mesh material which reduces breathing resistance, enabling moisture and humidity from exhalation to evenly disperse. The premium Coolmax® technology actively suppresses the growth of bacteria and keeps the wearer cool, dry and comfortable. The material is treated in anti-viral Polygiene ViralOff® proven to kill over 99% of viruses in two hours.*

SPECIAL FEATURES

- Coolmax® material, with anti-viral & anti-bacterial coating, Polygiene ViralOff® – this textile treatment technology reduces viruses by 99% in two hours*
- Mesh finish allows moisture and humidity from exhaling to evenly disperse
- Ergonomically designed with a low breathing resistance to allow wearers to breathe more easily

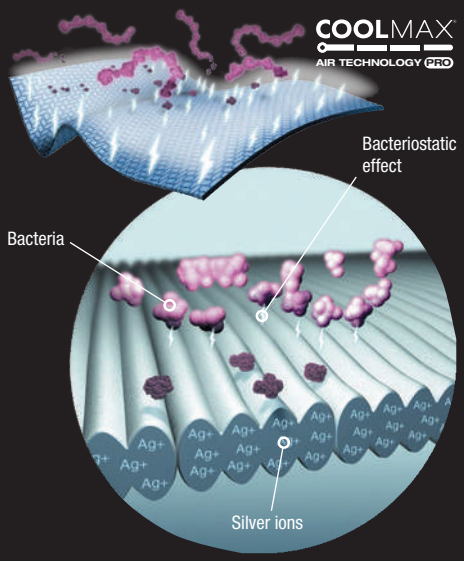
PERFORMANCE FACE COVERING
DATASHEET

COOLMAX® FRESHFX™



Coolmax® has long been the number one fabric for keeping wearers cool, dry and comfortable. Coolmax® freshFX™ fabrics actively suppress the growth of bacteria which is the root cause of body odour and related smells.

Around the world athletes of all ages and capabilities wear Coolmax® to enhance their pleasure and comfort, whilst maintaining the peak of their performance. Increasingly Coolmax® is entering the mainstream of clothing as fashion becomes ever closer related to sportswear, so people can enjoy the benefit of Coolmax® whatever the occasion.

Coolmax® keeps you cool and comfortable. It also helps to keep you fresh and feeling good whatever you're doing.

POLYGIENE VIRALOFF®

Polygiene ViralOff® is a brand for a treatment on textiles and other products which enhances the hygiene and protection factor.

In times of Coronavirus, we see an enormous need for treatment with antiviral properties. Polygiene once started in the care segment during the fight against SARS in 2004.

Polygiene VialOff® reduces viruses by 99% in two hours.*
