DATA SHEET

100mm Rubber Tyre Braked Swivel Top Plate

Constructed of a pressed steel body, a nylon wheel and a blue, non-marking rubber trye, these castors are complete with a ball bearing and a swivel top plate fixing.

Features and Benefits

- Nylon wheels with a blue rubber tyre casing for general product hardiness and protection of your flooring
- Ball bearing fitting to provide a full scope of movement and allow you to transport weightier loads than other fixings without impacting mobility
- Available in various sizes and with or without brakes, depending on your requirements
- Tread width: 30mm
- Overall height: 130mm
- Fixing plate size: 105x80mm
- Fixing hole centres dimensions: 72x52 and 105x80mm
- Belt size: M8
- Load capacity: 120Kg

Typical Applications

- For light to medium duty applications in industrial or institutional environments
