Datasheet
Compound Action Snips

RS Stock number 509-9487

Description:

Straight cut, cuts straight and slight curves
Cuts low carbon cold rolled steel
Non-slip serrated jaw of tough molybdenum steel holds material firmly and uniformly spreads cutting force across blade edge
Withstands strain of cutting heavy stock
Spring-action for fast, effortless feed
Handles made of high tensile strength alloy steel that exceeds hand power limit
Non-slip, textured grips and safety latch
Yellow handles for ease of identification

Specifications:

Cutting Capacity:	18 SWG
Material Cut:	Low Carbon Cold Rolled Steel
Overall Length:	171.45 mm
Type of Cut:	Left, Right
