Thin Client Mount - VESA Mounting Bracket

Product ID: ACCSMNT

This thin-client mounting bracket provides an excellent space-saving solution, by letting you mount your thin-client PC or docking station to create a clutter-free workspace.

The versatile double-sided VESA mount offers several installation options, enabling you to mount your thin-client PC or dock to the back of your monitor or under your desktop, or clamp it to a monitor-mount pole. The mount supports 75x75, and 100x100 VESA mount compatibility, making it suitable for most monitors and monitor mounts.

This adjustable mount is ideal for holding an Intel NUC, Mac Mini, most small CPUs, thin clients, docking stations, or USB hubs that fit within the width adjustability of the mount (.7" to 2.8" / 17 mm to 70 mm). The PC mounting bracket is also great for mounting other devices behind displays such as wireless routers, modems, video extenders, and digital signage media players. The mount can support up to 11 lb. (5 kg). It also features an adjustable strap to help keep your devices secure, and rubber pads to secure products with non-parallel surfaces.

The open-frame design of the mount allows unrestricted access to your computer.

The ACCSMNT is backed by a StarTech.com 5-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

RoHS Compliant

CE

Applications

• Create a clutter-free work space in office, business, commercial and institutional environments

• Enhance your home office by maximizing your desktop space

Features

• Save space and reduce cable clutter by mounting your thin-client PC or docking station to the back of your monitor, clamped to a monitor-mount pole, under your desk, or to the wall

• Supports up to 11 lb. (5 kg)

• Adjustable width from .7" to 2.8" (17 mm to 70 mm)

• 75x75 and 100x100 VESA mount compatibility

• Rubber pads to prevent damage to your device

• Keep your device secure with the adjustable strap

• Easily access your computer with the open-frame design
