DATA SHEET

200mm Rubber Tyre Roller Bearing

With roller bearings and a black, cushioned rubber tyre to ensure a smooth ride and usage. The rubber tyre itself has good resistance to wear and tear and the zinc coated centre allows some protection against corrosion.

Features and Benefits

- Roller bearing wheels to allow for optimum manoeuvrability
- Manufactured from zinc coated pressed steel for product longevity and resistance to general punishment
- Black rubber tyres offer cushioning to protect your moving load and the flooring
- Available in a variety of sizes and specifications to suit individual needs
- Tread width: 50mm
- Hub width: 58mm
- Bore size: 25mm
- Load capacity: 205Kg

Typical Applications

- For use in industrial, institutional or domestic settings for making furniture movable
