# HDMI TO VGA

## Active HDMI to VGA Converter

The NEWLink HDMI to VGA converter can convert the digital HDMI signal coming from your PC into an analogue VGA signal. This allows you to plug your modern laptop or games console to an older monitor or projector. You can not only enjoy a high definition image, but also audio from the 3.5mm stereo socket.

Most HDMI sources can supply the power needed to operate a converter but on the rare occurrence the HDMI source does not provide enough power you can connect the converter to a PC or power adapter using the provided USB power cable.

## Features

- Easy to Use: Installs in seconds, does not need drivers
