SCANGRIP®
INNOVATION FROM DENMARK

TRIPOD EX

For stationary positioning

ORIGINAL SCANGRIP
SINCE 1906

SCANGRIP accessories are approved to be used in explosive atmosphere in combination with NOVA-EX and NOVA-EX R.

The SCANGRIP TRIPOD is designed to meet any working situation where flexible illumination is key. Extendable from 1.35 m to 3 m, the tripod offers complete flexibility to position the NOVA-EX work lights in the required height and angle.

The tripod is made of durable and sturdy powder coated steel. To increase safety when in use, cables can be positioned in the safety clips placed on each of the tripods legs. The cable winding devices are for excess wire.
