HypaClean Alcohol Hand Gel Pump Dispenser 500ml

- Alcohol-based hand sanitising gel
- Kills 99.9% of all bacteria
- 65% (W/W) denatured ethanol with skin moisturising emollient
- Effective against a wide range of bacteria and viruses
- 500ml pump-dispense bottle

The **HypaClean Alcohol Hand Gel** is an alcohol-based hand sanitising gel proven to kill 99.99% of most harmful germs instantly with its 65% (W/W) denatured ethanol solution. The 500ml pump-dispense bottle is great for workplace use. It's a convenient way of keeping clean, safe and protected even when you don’t have immediate access to water or soap. This hand gel reduces the risk of disease and helps to prevent sickness by preventing the transfer of harmful viruses and bacteria. The current batch of product has been tested and recertified to expire on 14th April 2026. The product was tested by LPD Lab Services Ltd – Report No: X101
