DATA SHEET

Product Code: AVN9817130K
Brand : Avon

Anti-Corrosion Tape - 150mm x 10m

Product Information :

Cold applied grease green tape for the external protection of metal pipes and buried or insulated networks. This anti-corrosion grease tape adheres to surfaces without heating and does not require a primer. The product can also be used for the sealing of temporary protections of cable splices. Effective for long term sealing and protection. Works above and below ground and under water.

Features and Benefits
- Grease impregnated petrolatum tape
- Self-adhesive and waterproof
- Requires minimal preparation
- Protects water and gas pipes, cables, mechanical joints, valves, metal surfaces and tensioning bars against corrosion

Standards Met
- Conforms to British Gas Standard BG/PS/CW2.

EAN Code - 5036140327849

PRODUCT ATTRIBUTES

Colour	- Brown
Length	- 10m
MFR Part No.	- 9817130
Material	- Grease Impregnated Petrolatum Tape
Width	- 150mm
