OPERATORS MANUAL

⚠ SAFETY INSTRUCTIONS ⚠

- READ instructions before use.
- CHARGE battery for a full 18hrs before using for the first time.
- DO NOT charge with spotlight in “ON” position.
- ONLY use the accompanied AC or DC charger to recharge the spotlight.
- SPOTLIGHT is designed for intermittent use only. Continuous use is not recommended as this may cause damage.
- KEEP AWAY from children.
- NEVER look directly into the light or shine in someone else’s eyes.
- NEVER use the spotlight in water or close to fire.
- NEVER leave spotlight unattended during use.
- ALWAYS replace the bulb and battery with that of the same rating to avoid damage and dispose of properly.

FEATURES

- 2 million candle power, super bright 1 watt LED light.
- Side LED tube light.
- Two position swivel handle, to ensure comfortable and ergonomic access.
- 6V 4Ah sealed lead acid battery.
- Supplied with AC/DC mains charger & 12V DC car plug adaptor for portable charging.

OPERATING INSTRUCTIONS

- On the main body is the ON/OFF switch. The single dash when pressed will turn the main spotlight on. The 2 dashes when pressed will turn the side LED tube light on.

- Push the release button on the handle to allow the handle to rotate, the handle will lock in either of the two positions, vertical or horizontal.

- The horizontal position allows for searching around and carrying.

- The vertical handle position allows for pin pointing long range objects.

CHARGING

Time required to fully charge the battery is around 10 hours. Battery operation times are as follows: - Main spotlight up to 6 hours.
- Side LED tube light up to 70 hours.

• AC/DC ADAPTOR

Plug the charger into a wall socket, insert the charger plug into the DC jack of the spotlight, the red LED indicator light will turn on.

• CAR ADAPTOR

Plug the car adaptor into the cigarette lighter socket on your car (lorry or boat), insert the adaptor plug into the DC jack of the spotlight, the red LED indicator light will turn on.

NOTE: Charge the battery prior to initial use. Before charging the battery, make sure the spotlight power switch is in the off position. Never leave battery discharged, recharge battery immediately after discharging. **Recharge battery every 3 months even when the unit is not used.**

MAINTENANCE & REPAIRS

Use only a mild soap and a damp cloth to clean the spotlight. Never let any liquid get inside the spotlight. never immerse any part of the spotlight into water or a liquid. Make sure the spotlight is completely dry before using it.

To assure product safety and reliability, repairs, maintenance and adjustment should be performed by an qualified engineer, always using identical replacement parts.
