Grip It® Oil Therm

This highly versatile glove utilises two layers of nitrile coating to provide ultimate protection and gripping ability. The first full coating is waterproof, soft and resilient allowing for excellent dexterity and great freedom of movement; the second palm coating is infused with microfoam bubbles, increasing resistance to oils and liquids and maximising grip especially in wet and oily conditions. This ultimately results in a glove that delivers excellent abrasion resistance, durability and a long life expectancy. It has a contoured design and a soft, comfortable thermal liner offering unparalleled comfort. Suitable for a wide range of applications, the Grip It® Oil Therm delivers exceptional performance and reliability, whilst keeping your hands warm and comfortable.

Typically used for:

- Construction Work
- Cable Handling
- Component Handling
- Drainage Works
- Electronics

Case Quantity:

10 pairs per polybag
60 pairs per case
