DATASHEET

Leather Kevlar Welders Sleeve Red 18" (PR)

Protective arm sleeve designed for welding tasks where sparks and molten spatter are present, helping shield the forearm during fabrication and repair work.

Features and Benefits

- Leather outer layer resists welding spatter and sparks to protect the arm during hot work
- Kevlar reinforcement improves tear resistance for longer service life in demanding welding environments
- Elasticated cuff holds the sleeve securely in place to reduce movement during work

Order Code
