DATASHEET

Chrome/Leather Kevlar Gaiters 14 hook-N-Loop Grey (PR)

Protective gaiters designed to shield the lower legs and footwear from welding sparks and hot spatter, suitable for use in demanding welding environments.

Features and Benefits

- Chrome leather exterior resists welding spatter and sparks to protect legs and boots during hot work
- Kevlar stitching improves tear resistance for longer-lasting durability under repeated stress
- Hook-and-loop fastening allows quick, secure adjustment for a comfortable and stable fit
