V-Gard® Frames & Accessories

Face Protection - Technical Data Sheet

The V-Gard standard frame works ideally with any MSA slotted helmet and the wide choice of V-Gard visors. With the unique sloped frame design material slides off the frame and out of site. With the unique 3-point visor loading visors are fitted and removed quickly. V-Gard standard frames can be worn with or without ear muffs. They are perfect compatible with many half-mask respirators and more.

The V-Gard universal frame can be combined with MSA slotted and non-slotted helmets. Its heavy-duty, flat, rubber strap ensures easy and secure placement on the helmet shell.

Special elevated temperature frame versions made of nylon withstand temperatures of 176.7˚C without warping, cracking or crazing.

MSAs unique debris control can be easily added to any V-Gard frame to create a tight seal between helmet and frame.

V-Gard frames and the optional debris control are certified with V-Gard visors to ensure protection against impacts, molten metal and electrical risks. Please ask for the separate datasheets on visors and chin protectors.

P/N	Description	Weight (g)	EN166 Marking	EAN Code 13	Selling Qty
10121266	Standard frame, black (HDPE)	105	389 BT / EN1731-F	641817032985	10
10115730	Standard frame with debris control, black (HDPE)	136	389 BT / EN1731-F	641817025628	10
10121268	Universal frame, black (HDPE)	137	389 BT / EN1731-F	641817033005	10
10115822	Universal frame with debris control, black (HDPE)	167	389 BT / EN1731-F	641817025765	10
10121267	Elevated Temperature ET standard frame for slotted helmets, grey (PA Nylon)	97	389 BT / EN1731-F	641817032992	10
Elevated Temperature Universal Frame is EN certified but only available for large orders and longer lead time. Please contact MSA.					
10116539	Debris control, spare	29	N/A	641817025789	10
10117495	Retainer Band for universal frame, spare	15	N/A	641817026458	10
10117496	Slot adaptors, spare (2 pairs)	8	N/A	641817026663	10
Packaging	Specified part numbers correspond to each individual product, which is individually packed in polybag with instruction and individual label with barcode EAN code 13. MSA sells in Masterpacks of 10. Masterpack label includes GS1-128 code.
