Technical sheet

TRAVO228PRIV

Intervention barrier with stainless steel frame - 1.80m - Private

intervention barrier perfect for partitioning an area or creating a passage. Lightweight and very stable with its 3 panels, it is easy to install and transport. Made with a stainless steel (Inox 304) structure and polyester panels. Highly customizable, the barrier can be extended with additional sections, bases, and a transport bag. Ideal for adapting to all circumstances with various models and customization options (fabric type, color, printing, finish). The fabric is attached using Velcro and it comes with all the necessary connectors.

EAN 3321361041035
