Flock Lined Nitrile Gauntlets, Chemical Resistant, Teal

These Flock Lined Nitrile Gauntlets for Chemical Resistance from the Halo® PPE range have been designed with comfort and performance in mind. Halo® products are manufactured to suit a diverse workforce and ensure everyone is protected. By choosing Halo® you are supporting worthwhile charities including Mind for Mental Health and The Diversity Trust. Where possible, single-use plastic bags have been removed from Halo® packaging to reduce our impact on landfill and on the environment. By choosing Halo® products you are supporting worthwhile charities including Mind for Mental Health and The Diversity Trust. Where possible, single-use plastic bags have been removed from Halo® packaging to reduce our impact on landfill and on the environment.

The Gauntlets are designed for handling chemicals, cleaning and tasks like commercial printing, paintshop work and pesticide handling. Their flock-lined interior provides comfort during extended use, while the textured palm and fingertips enhance grip in both wet and dry conditions. Constructed from durable nitrile, they resist a wide range of chemicals and solvents, offering reliable protection. Available in a single pack with an optimal thickness of 0.38mm, they suit varying tasks and hand sizes.

Features and Benefits

- Odour reduction is achieved through chlorination and sanitisation processes
- Extended 330mm length offers superior wrist and forearm coverage
- Supplied with a thin yet durable 0.38mm design for precise handling
- Nitrile construction provides excellent resistance to petroleum-based substances, oils, and solvents with strong puncture and abrasion resistance, offering better longevity than latex
- Cotton flock liner absorbs perspiration, improving comfort during extended wear
- Gauntlet cuff offers extended forearm protection, ideal for chemical handling, liquid splashes, or abrasive tasks
- Smooth glove pattern provides maximum tactile sensitivity and is easier to clean and decontaminate, ideal for precision tasks
- Food safe

Standards

- Halo® products are BSI tested
- EN 388:2016
- EN 21420:2020
- EN ISO 20420:2020
- EN ISO 374-5:2016 - VIRUS
- CAT III
- EN 374-1:2016 Type A AJKLMNOPT
