DATASHEET

Dual Type 5 & 6 Hooded Coveralls

This Dual Type 5 and 6 Hooded Coverall from the Halo® PPE range have been designed with comfort and performance in mind. Halo® products are manufactured to suit a diverse workforce, and ensure everyone is protected. By choosing Halo® you are supporting worthwhile charities including Mind for Mental Health and The Diversity Trust. Where possible, single-use plastic bags have been removed from Halo® packaging to reduce our impact on landfill and on the environment.

Manufactured with a non-woven, micro-porous material front and a blue SMS protective back, the Dual Type 5/6 hooded coveralls from the Halo® safety range are designed for enhanced protection against front splash from liquid particles to EN 13034 Type 6 standards and solid particles to EN ISO 13982-1 Type 5 standards.

The breathable back panel combines protection and comfort, preventing the wearer from overheating during prolonged applications.

Features and Benefits

- Breathable SMS non-woven fabric provides wearer comfort in warmer settings
- Four-thread overlocked seams ensure that the garment is durable
- Elasticated cuffs, back and ankles allow for comfortable and secure wear
- Two-way zip closure with an adhesive storm flap allows for easy and secure fitting
- Drawn hood protects the head and neck area to limit exposure
- Diamond crotch improves movement whilst providing additional strength
- Available in a wide range of sizes from small to 4XL to suit a diverse team
