Banteer

4821N2FC1

Rain jacket with protection against pesticides

The anti-spray raincoat Banteer protects you not only against wind and rain but also against liquid chemicals. Is widely used in agriculture when treating crops with pesticides. The jacket, made of a light, elastic and durable fabric, has a fixed hood, sleeve narrowing, underarm ventilation and an extended back. In order to optimally protect you against the cutting wind, the Banteer has elastic wind cuffs in the sleeves.
