DATA SHEET

105mm Serrated Adjustable Clamp

CC12
Featuring a low profile design specially built to keep surfaces clear for machining.
Suitable for use with rough or finished parts.

Features and Benefits

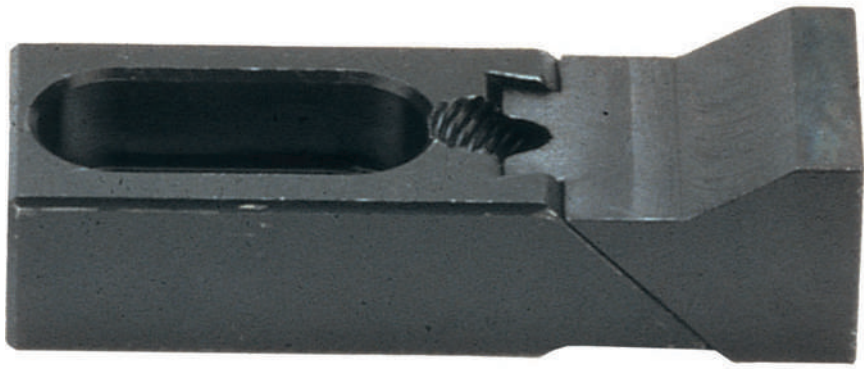

- Low profile clamp that keeps top surfaces clear for machining
- Ideal for rough or finished parts
- Black oxide finish for increased durability

Technical Specifications

- Material: Medium carbon steel
- Finish: Black Oxide
- Finish (jaws): Surface treated with high frequency quenching
- Hardness: HRC 38 (jaw only)
- Size (mm): 105 x 35 x 30

Typical Applications

- Machining
- Metal
