

Suction pad bracket

Product code: P/Support01

Overview

Set up a safety or recycling station in seconds with this unique bracket that allows you to connect Skipper recycle bins and dispensers to high gloss and glass surfaces, without the need for screws or permanent fixings.

Product Specifications

Width: 160mm	**Height: 180mm**
Depth: 62mm	**Weight: 172g**

Key selling points

- Connect Skipper recycle bins and safety dispensers to glass and high gloss surfaces
- No screws or permanent fixings required

Key features

- Connects to the Skipper suction pad holder/receiver

Attach the Skipper suction pad to the desired surface, then slide on the suction pad bracket. You can then attach a Skipper safety dispenser or recycle bin.

Product FAQs

Q. How much weight can the suction pad and its bracket hold?

A. The suction pad, when used with the suction pad bracket, will hold a Skipper recycle bin and contents up to 15kg

Q. Is there a risk of damaging surfaces?

A. The suction pad holder/receiver is safe to use on high gloss surfaces and glass It may leave marks on glass, which will wipe off easily. It is very important, however, to release the handle fully before removing from a surface. We strongly recommended that you do not use the suction pad holder/receiver on painted surfaces, as this could cause damage on removal.
